

KEMMLIT® | Shelves and hairdryer stations

Sanitary rooms are the calling card of every building. By installing creative and sophisticated systems from KEMMLIT, room solutions can be designed according to the precise requirements of the particular buildings.

Our clear commitment to providing top quality with regard to our products, project implementation and customer service has made us the market leader. For decades, we have always offered our customers outstanding and innovative solutions. At the same time, we combine solidity, innovation and a feel for design with state-of-the-art production technology. This is something that has won KEMMLIT numerous awards and prizes over the years!

Stringent quality controls and an eye for aesthetically discerning and balanced proportions ensure that our sanitary facilities satisfy even the highest demands.

In our laboratory, we conduct comprehensive function and wear tests. Each and every one of our products is subjected to a meticulous final inspection. The outstanding quality of our sanitary facilities and accessories is thus not by chance; it is the result of an end-to-end quality oriented philosophy. A fact also confirmed by the TÜV Technical Inspectorate.

Irrespective of which KEMMLIT products you opt for, you can always rely on the quality of KEMMLIT products and designs. Whether in swimming baths, saunas, sports facilities, leisure centres or public and commercial sanitary rooms – perfectly integrated, shelves and hairdryer stations from KEMMLIT offer the ideal solution in the high quality sanitary sector.

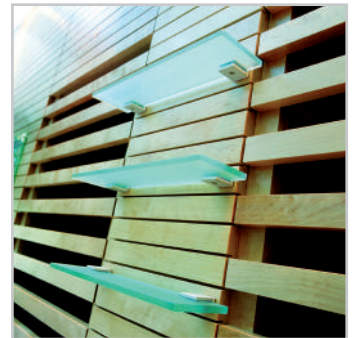

Shelving systems | made from toughened safety glass

Hook rail made from satin finish glass with stainless steel hooks

Custom-made glass shelves from KEMMLIT impress with their perfect design. The toughened safety glass is 10 mm thick and is extremely strong and scratch-resistant besides being easy to clean. It can have a satin finish, textured or coloured enamelled design. The smoothed edges look elegant and protect against injuries. Your KEMMLIT sales consultant will be pleased to provide you with customised installation suggestions on site.

Shelves with anodised aluminium mountings

Shelf with satin finish glass rear panel and textured glass underside

Shelf made from satin finish glass with anodised mounting elements

Stainless steel hook rail with anodised aluminium mountings

Shelving systems | made from HPL solid core material

The shelving systems are made from tried and tested 13 mm thick solid core material – high pressure laminate (HPL). This material is waterproof, highly scratch and decay resistant, anti-bacterial and resistant to chemicals and, for this reason, is ideally suited both for dry and wet room areas. KEMMLIT offers 15 attractive decorative colours with a black HPL core. Alternative colours are available upon request. The shelves are custom made and can be supplied either with or without a rear panel. They can be secured to the wall with brackets, or mounted on a base on site or installed on feet. All the corners and edges of the shelves are rounded or bevelled for extra safety. Upon request, shelves with doors and a lock can be supplied, or even complete locker systems.

Shelving front composed of several compartments with rear panel

Wall mounted shelf with rear panel

Integrated shelf without rear panel

Freestanding shelf carousel with several compartments

Toothbrush tumbler rack with towel hooks. Ideal for use in nurseries

Safety shelf with shelf surface tilted to back

Hairdryer stations | made from HPL solid core material

Hairdryer stations in conjunction with KEMMLIT locker systems

Depending on the particular room situation and requirements, made-to-measure hairdryer stations in conjunction with mirrors offer a wide range of design options. Hairdryer stations made from HPL solid core material are extremely robust and ideally suited to withstand heavy everyday use in fitness centres, sports facilities and swimming baths. They provide space for concealed cable routing. Allow your KEMMLIT sales consultant to advise you on site.

Seated hairdryer stations with front apron and upstand

Hairdryer stations with integral mirror elements

Hairdryer station with KEMMLIT cronus cubicle system

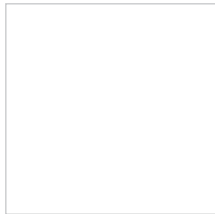

Inline hairdryer stations with large area mirrors

Colour concept | vibrant and versatile

The colour combinations are virtually limitless!
Colours and surfaces are perfectly coordinated to match cubicle systems and other sanitary products from KEMMLIT.

structure **SR 200***

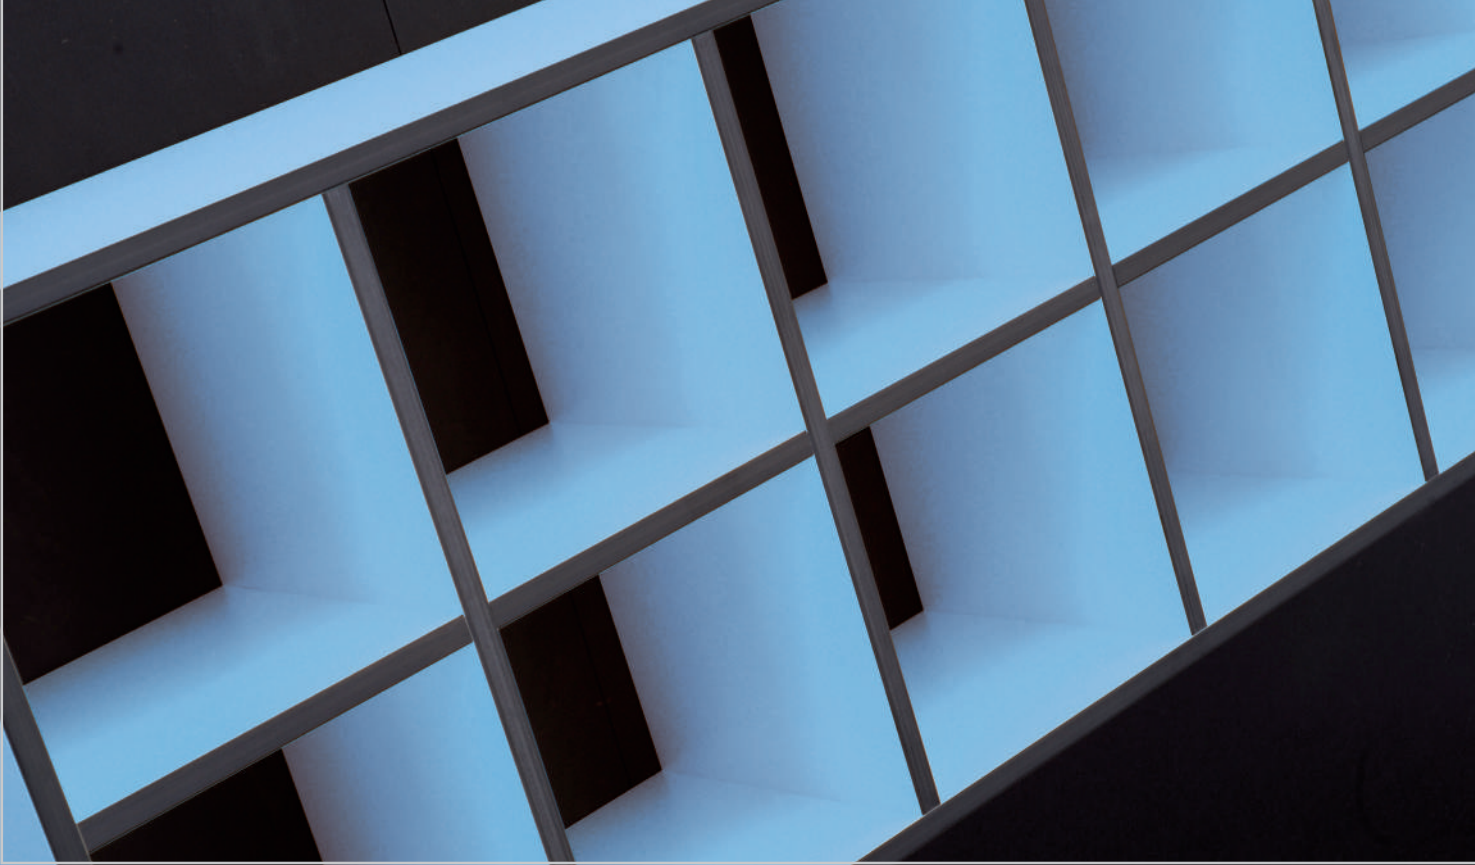

satinato*

For technical printing reasons, the colours illustrated may differ slightly from the actual colours.

The characteristic green shimmer in the glass is due to the iron oxide present in the base material used.

** translucent, not opaque*
